

SPARTAN ADVANTAGE

Whether you're a commercial cutter or weekend warrior, we believe Spartan Mowers offers the highest quality machines, pound for pound and dollar for dollar on the planet.

Robert & Becky Foster
Creators/Owners

“WHAT STARTED AS A DREAM

was built with dedication and one goal in mind, to set a new standard for the mowing industry. Robert Foster, creator of the Spartan Mower and successful entrepreneur, has had a passion for mowers ever since he was a young boy. Over the years, that passion has developed into one of the fastest growing mower companies in history. The importance of every detail is evident from its ergonomic design to the quality of the cut. The machine not only looks good, but it handles like a dream. It's built with heavy duty American steel and is manufactured at our headquarters located in Batesville, Arkansas. We believe you will be blown away by the commercial grade features offering performance and durability at an incredible value.

For the past six years, we've been relentlessly pursuing the perfect machine. To be honest, it hasn't been easy. We've had to learn from our mistakes and continually improve. Our rapid growth has given us the opportunity to expand our facility, and now we are able to build the mower we've always wanted. I'm excited to show the world **ALL** the *Spartan Advantages* that set us apart from and above the competition.

8.7 ACRES UNDER ROOF OF STREAMLINED MANUFACTURING

"With our new production facility, we're able to offer a better product at a better price. The building has helped us tremendously, but nothing like our own people have."

ROBERT FOSTER

EXPERIENCE THE SPARTAN ADVANTAGE

Take this list of Spartan Advantages and compare our mower to your favorite brand. Let's see how they stack up. Can they offer as many advantages at the same low price? Don't forget to compare the comfort and smooth ride.

We Know You'll Be Impressed

REAR RADIAL TIRES

It all starts with traction. Exclusive Radial Tires for better traction and softer ride are on all RZ-HD models and up. Challenge our ride against others out there and you'll feel it for yourself.

*RZ-Pro, RZ, and RZ-C not included. RT-HD and above come standard with front radials.

HD FUSION WELDED FRAMES

Our frames on all RT and SRT models are constructed from the same tubing as our frames on our 65 mph Intimidator UTVs. Spartan Mowers are built tough, there's no doubt about it!

7 GAUGE STEEL DECKS

All Spartan Mowers have a deck fabricated from 7 gauge steel, not just the top end models. Check out the competition and see the difference for yourself. No light duty decks here!

RECEIVER HITCH

All RT and SRT models come equipped with a built-in 2" receiver hitch. Just think about all the possibilities.

VIBRATION CONTROLLED DECK

Vibration controlled deck system with a one-piece idler pulley and shock absorber takes away belt whip and reduces vibration. The soft start electronic control pulses electricity to the electric clutch at engagement to increase clutch and belt life.

KEY PAD

Our key pad allows you to personalize your code to start the mower. It also has a push button switch for accessories like lights, electric chute, etc. The screen shows engine hours, PTO clutch hours, when to change your oil and light indicators for diagnostics. It's your mower's personal assistant!

*Standard on ALL Models

HYDRAULIC DRIVE

All models from RZ-HD and up have Parker Hydraulic Drives (no gear reduction) for smoother, trouble-free operation. That's up to 25% more efficient than gear reduction hydros. Who doesn't love being more efficient?!

FOLDING ROPS

ROPS (Roll Over Protection) standard on all RZ-HD, RT and SRT 2021 models for operator protection. Fold down to clear enclosed trailers.

TUFF-TORQ

Our RZ-C, RZ and RZ-Pro models have servicable Tuff-Torq transmissions that offer added power and reliability.

CHARGE PUMPS ON EVERY MODEL RZ & UP

Precharge pumps on every model RZ and up for 2021 makes every hydrostatic drive smoother for precision control by eliminating pump cavitation.

PARKING BRAKE PEDALS

Foot controlled on and off parking brake so both hands can be on control sticks. Another great feature that helps keep you in control. Test drive and see what you think for yourself.

*Standard on ALL Models

HILLSIDE / TRACTION

Spartan Mowers has engineered superior technology that combines perfect balance with superb incline control for a smoother, safer ride. Take it on an incline and feel the difference!

*Industry standard does not recommend mowing on inclines over 15 degrees.

SPRING SUSPENSION

SRT models have rear traction enhancing custom Winimac® spring suspension for better grip and smoother ride. It allows radial tires to follow every little undulation in the riding surface. In other words, the springs allow the wheels to follow the contour of the turf.

ADJUSTABLE SEAT ON ALL RT-HD & SRT MODELS

Exclusive Spartan Mower seats offer supreme comfort for an 'all day ride.' A 3" adjustable seat made with Dymetrol® material, coupled with adjustable Tecspaks® elastomers under the seat platform offers a ride that's above industry standard. We don't compromise on comfort.

**Upgrade Available on Other Models*

FOUR AG BEARINGS

All RT-HD and above models have four ag bearings in each spindle along with a 1¼" shaft for rock solid blade stability and longer life.

STRESS PADS

Stress relief pads are standard on all XD models and available as an accessory for the entire line. For those of you who mow hours at a time, try our stress pads out for yourself. Your shoulders and neck will thank you! Did we mention we don't compromise on comfort?!

LED LIGHT KITS

Customized Spartan LED headlights are standard on XD and available plug and play for all models. Mounted directly to the front of the mower, it's great for finishing your last three rows at dusk and lighting your way into your trailer or shed.

**Broad Beam & Split Beam LED Light Kits Available*

U.S.A.

Did you know that we are manufactured in the U.S.A.? Made with American steel, engines, hydro drives, custom seats, control panel, idler, pullies... the list goes on.

ON-THE-GO HEIGHT ADJUSTMENT DIAL

Deck height adjustments may be made on-the-go for all 2021 models by depressing shock assisted pedal, dialing numbered level, and releasing pedal.

12V OUTLET

Not only a place for your phone, but a way to charge it or to power other 12V items.

**RZ models - storage pocket not included*

ADJUSTABLE ARMS

Adjustable steering arms come standard on all RT and SRT models and can be installed on **ALL models**.

ENHANCED XTF DECK SYSTEM

Xtreme Turf Flow (XTF) decks have been redesigned and enhanced to meet the spring, summer, and fall mowing conditions everywhere. This enhanced deck system comes standard on **ALL models** 42" to 72".

EZ DEBRIS REMOVAL

Belt covers are open around the perimeter to permit EZ blowing out of accumulated debris to help keep your machine cleaner after use.

**Standard on ALL Models*

VANGUARD® QUIET RIDE EXHAUST

RT-HD, SRT-HD, and SRT-XD have a new Quiet Ride high-end insulated exhaust system. Check these out on all Big Block Vanguard® models.

SOLID ANTI-SCALP WHEELS

Most competitive anti-scalp wheels are hollow (like an egg shell). Spartan's are solid and greasable.

HIGH QUALITY PARTS

The same mower pulleys, idlers, shock controls, soft start key pads, belts, spindle bearings, and many other parts used on \$10,000 full commercial models are also used all the way down to the lowest priced residential Spartan models. This includes our sturdy 7 gauge steel decks!

**Standard on ALL Models*

ANTI-SLIP MAT

All models are equipped with a rubber anti-slip foot mat. These mats help reduce vibration from the transmission to the operator's feet.

**Standard on ALL Models*

RESILIENT BUSHINGS

Special resilient bushings on the mower stabilizing arms reduce the shock and damage to the mower if it hits curbs, stumps, or other debris.

**Standard on ALL Models*

DESIGN & STYLE

Our passion for muscle cars from the late 60's has fueled the design of the Spartan Mowers. The wide tires and sleek style give it an image all its own.

RUGGED POWER AND HIGH OPERATING EFFICIENCY

The heart of the HT Series Integrated Hydrostatic Transmission is the world class Parker Torqmotor married to a high performance Parker variable displacement pump. Parker Torqmotors and pumps have earned a worldwide reputation as a gold standard in hydraulic power transmission. Parker drive systems have been propelling the turf industry since the introduction of zero turn radius mowers, demonstrating market leading durability and efficiency. Laboratory tests show the HT Series transmissions achieve up to a 25% efficiency gain over competing power systems. Spartan's partnership with Parker has been crucial to our success in offering a more efficient machine.

MORE POWER TO THE DECK

More Power to the Deck

Better overall efficiency means more horsepower to the deck. This translates to a fast, high quality cut, whether the turf is easy or tough, or the terrain is flat or hilly.

But, if it's your money you're spending on fuel, you should strongly consider the potential fuel savings that come with a machine powered by Parker's HT Series Transmission.

HT Series Transmissions provide more power to the deck for faster, high quality cuts in tough terrain. The HT Series puts more torque and more power on the ground. HT Series Transmissions need less energy to propel a machine, leaving more power for work.

NO GEAR BOX

Gearboxes rob power from the machine and are a source of fluid contamination. Eliminating the gearbox means:

- Higher starting torque
- Higher efficiency
- Smooth, quiet operation
- Fewer internal moving parts
- No gear wear or debris in hydraulic fluid

Lab tests suggest 25% fuel savings over comparable competitive power systems. Parker fuel consumption lab tests of two identical machines, one with HT Series transmissions, the other a stock machine with a competitive drive system, revealed that the HT Series outfitted machine ran 25% longer under the same loading conditions. Of course, in real life in the grass, experience will vary.

**When used with approved hydraulic fluid.*

High operating efficiency pays off with less heat and more power available to do work. Less heat into the fluid means a cooler running transmission, which extends fluid life. When using Parker engineered hydraulic fluid in the HT Series, the fluid change interval can be as long as 1000 hours*, significantly greater than the competition. Direct porting between the pump and motor yields greatly enhanced operating efficiency. Cooler operating design means less heat into the hydraulic oil, which translates into less maintenance and lower downtime.

Wasted Energy = Heat

Higher efficiency means lower fluid temperature and cooler operation.

Kawasaki

— ENGINES —

FX1000V-EFI

THE MOST POWERFUL EFI ENGINE YET FOR HIGHER PRODUCTIVITY AND BUSINESS-BUILDING POTENTIAL.

Kawasaki EFI fuel management continually adjusts power to load, keeping blade tip speed constant and ground speed steady. With optimum cutting speed through tough conditions, you'll get more done in less time - and do it with maximum fuel economy.

- // 90° V-Twin
- // Integrated Electronic Throttle Control
- // 9 Pressurized Lubrication System
- // Electronic Ignition with Variable Spark Timing
- // Sequential Multi-Port Fuel Injection
- // Compact Electronic Control Unit
- // Proven Open-Loop Design
- // Electronic Elevation Compensation
- // Cast-Iron Cylinder Liners
- // Uniquely Styled Rain Cap
- // Hexagon-Shaped Debris Screen Cover
- // Highest SAE Certified Horsepower in the Industry
- // High-Pressure Fuel Injection Technology with Electronic Fuel Pump
- // Industry-Exclusive Magnetic Clean-Out Port Covers, Makes for Easy Maintenance

ENGINE SPECIFICATIONS

Displacement - 999cc (61.- cu in)

Number Of Cylinders - 2

Bore x Stroke - 3.51 x 3.15 in (89.15 x 80 mm)

Compression Ratio - 8.4:1

Oil Capacity with Filter - 2.2 U.S. qt (2.1 liters)

Maximum Power - 38.5 hp (28.7 kW) at 3,600 rpm

Maximum Torque - 57.8 lbs-ft (78.4 N-m) at 3,200 rpm

Dry Weight (Without Muffler) - 153.7 lbs (69.7 kgs)

POWER

TORQUE

ENHANCED XTF DECK SYSTEM

The new Enhanced Xtreme Turf Flow Deck System was designed with added suction to mow all types of grass. The rounded front baffling follows the contour of the blades. We've also added a wiper to help deflect the grass out to prevent it from circling back into the chamber.

The new deck is designed with a bent lip at the back that adds strength and prevents hang ups. It also includes Solid Anti-Scalping Wheels with greased zerks. All Spartans are equipped with a commercial grade 7 gauge deck.

Pictured from Top Left to Bottom Right:

Vibration Control Deck System Shock, 4 ag Bearing Spindle on HD & XD Models, Front Baffle, XTF Wiper, Pulley Cover, and Anti-Scalping Wheels

7 GAUGE STEEL

All Spartan Mowers have a deck fabricated from 7 gauge steel, not just the top end models. No light duty decks here!

SOLID ANTI-SCALP WHEELS

All Spartan Mowers come equipped with solid, greasable anti-scalp wheels.

SEALED ALUMINUM SPINDLES

Using sealed aluminum spindles allows for cooler operating bearings. All XD and HD models come standard with 4 ag bearings per spindle.

PRECISION BAFFLES

Precision baffle location in tandem with deck height contributes to a perfect cut every time.

STANDARD RUBBER CHUTE

The Spartan rubber chute helps prevent debarking of trees and marking or damaging anything the deck might come in contact with.

VIBRATION CONTROLLED DECK SYSTEM SHOCK

Vibration controlled deck system with a one-piece idler pulley and shock absorber takes away belt whip and reduces vibration.

SRT

THE BEST OF THE BEST

All SRT commercial models are constructed with the 5-layered Smart Ride Technology for both increased traction and comfortable ride. They include "all out" Xtreme Duty (XD) commercial units, Heavy Duty (HD) commercial units, and Professional (Pro) units that provide SRT features at an unmatched price.

SMART RIDE TECHNOLOGY – 5 LAYERS OF COMFORT

Front and Rear Radial Tires

Maximum traction while also providing a softer and smoother ride with its construction. Allows lower air pressure to be used.

Rear Suspension with Springs

Custom Winamac Coil Springs allow up and down deflection and slight side-to-side movement of tire tread to increase traction while also providing a softer ride by allowing the rear traction tire to follow the contour of the turf.

TecPak® Under Seat are Adjustable for Weight

TecPak® under the seat are easily adjustable for 100-300lb operator weight to provide a smoother ride. This highly engineered elastomeric product absorbs more energy per unit of weight and volume than other models.

360 Degree Seat Plate to Dampen Shock From All Directions

Three neoprene mounting points absorb shock from 360 degrees.

Ultra-Premium Dymetrol® Adjustable 3" Travel Seat

Dial on front of seat is easily adjustable for operator's weight. The high performance Dymetrol® fabric works like a spring and is comfortable, light weight, and durable.

SRT-XD

PARKER HTG 16CC
Transmissions

BIGGEST - BADDEST - BEST

The biggest Vanguard® 896cc and 993cc, 125 lb engines, along with the two 66 lb Parker HTG-16cc extreme duty transmissions and the five layers of Smart Ride Technology comfort put the SRT-XD at the top of the food chain for **COMMERCIAL** quality mowers.

Operator seat is surrounded by the stylish fuel tank with integrated cup holder and easy to read fuel gauge, as well as new deck height adjustment dial for easy deck height changes.

SHOCK ASSISTED SEAT ASSEMBLY

Easily adjust from 100 - 300 lb for operator comfort. Test drive and experience the difference.

ENHANCED XTF DECK SYSTEM

Xtreme Turf Flow (XTF) decks have been redesigned and enhanced to meet the spring, summer, and fall mowing conditions in 48 states. This enhanced deck system comes standard on ALL models 42" to 72".

3 Year Residential. Lifetime Warranty on Leading Edge of Deck. *See dealer for complete warranty details.

POUND FOR POUND, THERE'S NOTHING IN THE INDUSTRY THAT COMPARES

Tuff Torq 400 with steel gears and charge pumps, 22" Carlisle Turf Armor bias ply tires plus these commercial components: 7 gauge XTF deck, ag bearings, belts, blades, idlers, pulleys, electric clutches, rubber floor mats, injection molded belt covers, solid anti-scalp wheels and keypad. Compare the weight of this machine to the competition. The RZ has the most commercial DNA for a residential price, period. The **ALL NEW** 61" 826 lb, 5' mower offers the best value per pound in the industry.

ENGINE	DECK SIZE	HORSEPOWER
Briggs Commercial 724cc	48"	25 hp
Briggs Commercial 724cc	54"	25 hp
Kawasaki FR691 726cc	48"	23 hp
Kawasaki FR691 726cc	54"	23 hp
Kawasaki FR730 724cc	61"	24 hp

*All Spartan Mowers are equipped with multiple unique advantages. These are just a few available on this mower. See pages 7-10 to learn more.

7 GAUGE STEEL DECK

Starting with our 2020 models, all Spartan Mowers have a deck fabricated from 7 gauge steel, not just the top end models. Check out the competition and see the difference for yourself. No light duty decks here!

22" BIAS PLY TIRES

Spartan exclusive tread design for improved traction both on level ground and on inclines.

ON-THE-GO HEIGHT ADJUSTMENT DIAL

RZ-Pro, RZ, and RZ-C deck height adjustments may be made on-the-go by depressing shock assisted pedal, dialing numbered level, and releasing pedal.

3 Year Residential. Lifetime Warranty on Leading Edge of Deck. *See dealer for complete warranty details.

SMALL JOBS. BIG IMPACT.

RZ-C

RZ-C

TUFF TORQ 300
w/ 20" Carlisle Turf Armor Tires

IT JUST FITS

RZ-C NEW FOR 2021

COMPACT SOLUTION WITH THE SAME RESULTS

With the same fusion welded tube frame as our bigger zero turns, this compact version has the same durability with a lower starting price. It's 4" deep deck, allows it to maneuver easily in tight places.

STANDARD RZ-C ADVANTAGES

- // 4" Deep Deck
- // 5 gal Fuel Tank
- // 18,500 FPM Blade Tip Speed
- // Commercial Quality Parts
- // Exclusive Carlisle Turf Armor Bias Ply Tread Design

ENGINE	DECK SIZE	HORSEPOWER
Briggs Commercial 724cc	42"	25 hp
Briggs Commercial 724cc	54"	25 hp
Kawasaki FR651 726cc	42"	21.5 hp
Kawasaki FR691 726cc	54"	23 hp

5GAL FUEL TANK
The sleek designed tank holds plenty of fuel for multiple small lot cuttings.

42" DECK
Compact blade, 7-guage, 4" deep deck will fit through gates, shed doors and onto smaller trailers.

54" DECK
Full 4", 7-guage deck with triple blades, cuts your grass like a dream and your mowing time in half.

KEY PAD
Our key pad allows you to personalize your code to start the mower, has a push button switch for accessories, and the screen shows engine hours, PTO drive hours, when to change your oil and light indicators for diagnostics.

ON-THE-GO HEIGHT ADJUSTMENT DIAL
RZ-Pro, RZ, and RZ-C deck height adjustments may be made on-the-go by depressing shock assisted pedal, dialing numbered level, and releasing pedal.

HIGH QUALITY PARTS
The same mower pulleys, idlers, shock controls, soft start key pads, spindle bearings, and many other parts used on full commercial models are also used all the way down to the lowest priced residential Spartan models.

*All Spartan Mowers are equipped with multiple unique advantages. These are just a few available on this mower. See pages 7-10 to learn more.

3 Year Residential. Lifetime Warranty on Leading Edge of Deck. *See dealer for complete warranty details.

Friends,

If you've known me very long, you've probably heard me say that I've had an obsession about mowers ever since I was a small boy. While my friends were hanging posters of super heroes, I was cutting out pictures of mowers from magazines. I didn't know at the time that this obsession would turn into a life long journey. Researching, testing, building...a labor of love...yes, I do mean love, turned into reality. Ever since we first launched the Spartan Mower, I began dreaming about creating a stand-on unit with the strength and durability that Spartan is known for, along with the ease, comfort and quality to make the landscaper's job that much easier.

This journey has been long and definitely not been easy. But, after countless hours of hard work, by an amazing team, I am proud to introduce to you what I am calling the "King of the Grass". The industries newest stand-on mower!

It's in my DNA to create the next best thing, the endless pursuit of perfection. So, we hit the road and talked to landscapers, the men and women who are hard at it every day, and asked them what would make their job easier. Quick step on and step off platform. Done. Easier access to raising and lowering the deck. Check. Sleek stress pad design option that offers comfort on the neck and shoulders. Yes! When you test drive the new KG or King of the Grass, you'll see just how simple it is to use. Plus, we've designed a seat option that you can install or remove in just 30 seconds. It will be the first accessory you'll want to add on! For those lawn professionals who have full days of mowing, it will make all the difference in the world. It truly is the smoothest stand-on / sit-on combination mower on the planet. It's designed with 8 different adjustable settings for weight and comfort angles. You'll also love the "Dymetrol" pad designed for your knees to be supported while you lean into it. I really could go on and on, but you need to test drive one for yourself. Don't just take my word for it. It really is the next best thing!

My wife Becky and I, along with our amazing employees are so excited about this new line of mowers. It's been over 20 years in the making, but for me, it's a dream come true.

It just keeps getting better!

ROBERT FOSTER

A DREAM BECOMES RING

KING OF THE GRASS FEATURES

- // An operator's platform with four (4) progressive bushings - allowing for 100-300 lb operator comfort.
- // Smoother Parker integrated hydros.
- // Front radial castor tires - providing smoother, faster, controllable operation.
- // Wide radial tires with Spartan's exclusive tread design - softening the ride while producing superior traction.
- // 18,500 feet per minute blade tip speed, and unique baffling to allow for a pristine cut.
- // Four (4) adjustable shocks with dual independent front suspension forks. *Upgrade Optional

MOW WITH SPEED AND COMFORT

The ALL NEW Spartan King of the Grass ride behind mower not only gives you the option to mow faster and more comfortably, but also comes equipped with a variety of advantages to make your mowing experience the best you've ever experienced.

PARKER HYDROS

Parker hydros are gear free and are smoother and more responsive for both standard and sit down operator locations.

VANGUARD® BIG BLOCK

37 hp fuel injected Vanguard Big Block for maximum power.

24" RADIAL DRIVE TIRES

Radial drive tires ride smoother and provide better traction for the ultimate in maneuverability. Tread design is a Spartan exclusive!

PROGRESSIVE SUSPENSION PLATFORM

Platform has 4 progressive suspension components that provide a soft ride automatically for riders 100-300 lbs.

QUICK CHANGE SEAT

User can recline with knees against the angled bolster - seat has 6 inches of travel and is adjustable 4 ways for comfort and control. Can be installed or removed in less than 60 seconds.

**Optional Upgrade on ALL Models*

DECK LIFT PEDAL

Quickly press the pedal underneath your right foot to lift the deck for transport or to change cut height.

MAGNETIC PIN

Drop the magnetic pin into a cut position height from 4.5" to 1.5" to assist in mower transportation or to help you get the perfect grass cut height.

SOFT CONTROLS

Soft controls have optional arm rest for added forward and reverse comfort.

ADJUSTABLE REFERENCE BAR FOR FORWARD SPEED

Adjustable reference bar has two positions for medium or faster speed control, making it easier for you to adjust speed on the fly.

ANGLED BODY REST

Body rest is angled forward and bolstered for comfort while standing. Operator can stand or bend at the knees and sit back and relax and continue mowing.

KEY PAD

Key pad can accept 4 digit code or only one push to unlock, reads RPM, safety switch operation, job timer, oil change reminders, etc.

DUAL 6 GALLON TANKS

Dual 6 gal tanks (12 gal total) provide fuel for all day use and come with a built-in cup holder.

XTREME TURF FLOW DECK

Xtreme Turf Flow (XTF) mowing deck options of 54" or 61" provide maximum cutting performance.

PROTECTIVE SIDE DECK TRIM

Strip on trim side of deck helps prevent scraping trees, marking foundations, etc.

ADJUSTABLE FRONT SHOCKS

Multi adjustable front shock provides more up and down travel.

**Optional Upgrade on ALL Models*

ALUMINUM WHEELS

Aluminum wheels add both strength and a sleek look to rear tires on top four models.

**Standard on KG-XD Only*

DESIGNED FOR ALL DAY RIDE

Test drive to feel the difference the King of the Grass offers when it comes to comfort. There should be no compromise. Easy access off and on, bolstered knee pad and handle design was created with the all-day rider in mind.

U.S.A.

Did you know that we are manufactured in the U.S.A.? Made with American steel, engines, hydro drives, custom seats, control panel, idler, pullies... the list goes on.

FULL BEAM LED LIGHTS

Full beam LED lights for dusk or early morning loading are controlled by one button on key pad.

**Standard on KG-XD*

PARKING BRAKE

Parking brake by a handle on left side controls 4 expanding brake shoes on both rear wheels.

FUSION WELDED FRAME

Fusion bonded frame is beefed up in all the right places and ready for work.

**All Advantages Listed Apply to 2021 Models*

RING OF THE GRASS

PARKER HTJ 12CC & HTE 10CC Transmissions

A MINUTE SAVED IS A DOLLAR EARNED

King of the Grass combines all the best features of a zero-turn with a stand-on unit to work better, faster, smoother, and is more comfortable with its sit-behind seat. Just lean back against the seat with your feet on the “soft-ride” platform, and place your knees against the “Dymetrol®” angled bolster. We believe, as do many who have test driven one our prototypes, it is even more comfortable than a sit-down Z!

STANDARD KG ADVANTAGES

- // 100-300 lb Operator Platform
- // Multi-Function Key Pad with Soft Start
- // Throttle Next to Parking Brake
- // Magnetic Pin Height Adjustment
- // Front & Rear Tie Down Locations
- // Lean In Bolster at Optimum Angle
- // 5/8" Thick on Leading Edge of 7 Gauge Deck
- // Solid Anti-Scalp Wheels on Deck
- // 4 Ag Bearings on Mower Spindle
- // Rubber Anti-Scrape Mower Chute
- // Full Beam LED Light *KG-XD Only

MODEL	ENGINE	DECK SIZE	HORSEPOWER

*Shown with Optional Front Suspension Forks Available on ALL KG Series Models

*All Spartan Mowers are equipped with multiple unique advantages. These are just a few available on this mower. See pages 43-45 to learn more.

CONTROL PANEL

Has soft start PTD switch and diagnostics such as RPM, oil change, job timer and more.

QUICK CHANGE SEAT

Seat easily changed out in less than a minute but provides hours of comfort.

HYDRAULIC DRIVE 12CC & 10CC

Keep your ride smooth and trouble-free with Parker all Hydraulic drives (no gear reduction and up to 25% more efficient than gear reduction hydros). Who doesn't love being more efficient?

VANGUARD® BIG BLOCK EFI 37 HP

Vanguard Electronic Fuel Injection technology uses Engine Control Module which means improved starting at all temperatures, smooth performance at all elevations, quick load acceptance and reduced fuel consumption.

KAWASAKI FX801V 25.5 HP

The FX801V engine delivers serious power when there's serious work to be done. Expect major strength from this top-of-the-line V-twin 4-cycle vertical shaft engine featuring cast-iron cylinder liners, a metal engine cover, and heavy duty shift-type starter.

KAWASAKI FT730V 24 HP

Kawasaki FT Series engines are designed to make light work of the heaviest loads. Summon the power with 39.7 pounds of torque, and the response is instant. Put grass and debris in its place with the all new Vortical air filtration system.

Lifetime Warranty on Leading Edge of Deck. *See dealer for complete warranty details.
